

Kick Start Your Bike Commute Packages

Velofix has teamed up with the Microsoft Commute team to offer packages to kick start your bike commute!

Various packages are available and comprise your choice of bike, helmet, lights and gloves from the options below.

Velofix will work with you to arrange a test ride, advise on sizing, professionally assemble your bike, get it tuned, delivered to your door and get you riding.

Continuum Onyx

PRIORITY BICYCLES

Features:

- Nuvinci CVT Rear Hub
- Rust-Free Gates Carbon Belt Drive
- Tektro Hydraulic Disc Brakes
- Dynamo Front Hub
- USB Rechargeable Rear Light
- Durable Composite Color Matched Fenders
- 360 visibility with reflective decals
- Reflective Highlight Strip on Tire Sidewall
- Internal gear routing
- Puncture-Resistant Continental Tires
- Pre-Drilled for Most Rear and Front Side Accessories
- Kickstand Included

Style, simplicity, and safety all come together at an unmatched value for commuters and sport touring riders.

Enjoy your ride, without worry of shifting under load or skipping gears with the seamlessly shifting NuVinci rear hub. Just twist the shifter grip to the perfect resistance to go over hills or along stretched out bike path. Never stain your pants or fix an ailing rusty chain with the Gates Carbon Drive belt. Start and stop with confidence using the Tektro Hydraulic disc brakes. Internal cable routing helps keep a clean and refined look.

A front dynamo hub will illuminate your ride without the need for batteries or recharging. 360-degree reflective logos, tire beading and an included rear USB rechargeable rear light increase visibility for urban riders or out on a dark road. Puncture resistant Continental tires with a reflective sidewall help keep you safe, comfortable and seen at night.

Available in Small (17"), Medium (19") and Large (21")

Matte Black
